## The Complete Saw Blade Solution

IRWIN<sup>®</sup> now offers a comprehensive line-up of circular saw blades for professional tool users. From the job site, to the fine woodworking shop, IRWIN offers a blade for every user need.

CONTRUCTION SERIES SAW BLADES

Construction Series Saw Blades –IRWIN MARATHON  $^{\circledast}$  saw blades, designed to meet the pressures of the jobsite, provide long life and durability without sacrificing speed of cut.

# IRWIN Marples<sup>®</sup> Woodworking Series saw blades are specially engineered to meet the quality and craftsmanship fine woodworkers and finish carpenters demand.

WOODWORKING SERIES SAW BLADES

IRWIN's specialty circular saw blades, designed to provide superior cutting performance in a variety of materials, are a versatile jobsite staple.

### The Professional Tradesman's Choice for Construction

When you're building, there's no room for error. It's a tireless pursuit to get the job done right, to produce something to be proud of and not just any blade will do. You want the blade that helps you do the job the way it was meant to be done. That's why professional tradesmen choose the MARATHON<sup>®</sup> family of circular saw blades from IRWIN<sup>®</sup>. Offering a wide variety of blades for every construction application, IRWIN is the brand of blades you can always depend on.

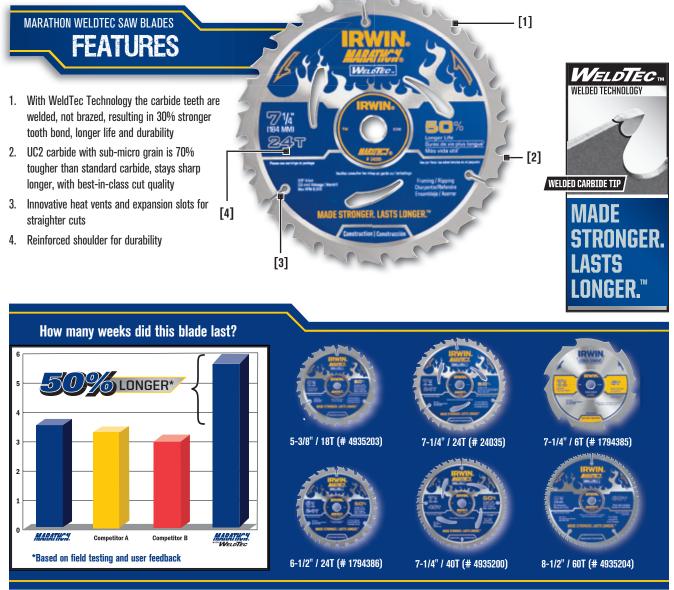

### The Standard for Jobsite Productivity

IRWIN Tools makes MARATHON circular saw blades for a full range of saws and applications. Use the table below to match blades for your equipment with your project plans. Locate the saw type and blade diameter in the left column. The columns to the right list the recommended blade sizes and the available number of teeth per blade.

Type of Saw		Blade Diameter	Arbor	Application	Teeth
	13	5-3/8"	10 mm	Framing / Ripping	18, 24
Cordless		5-1/2"	10 mm	Framing / Ripping	18, 24
Circular	19 Dec	6-1/2"	5/8" (16 mm)	Framing / Ripping	18, 24
Saws		0-1/2	5/6 (10 1111)	Trim / Finish	40
		7-1/4"	5/8" (16 mm)	Framing / Ripping	24
		6-1/2"	5/8" (16 mm) and Diamond Knockout	Framing / Ripping	20
Corded	10.9	7-1/4"		Framing / Ripping	16, 18, 24
Circular Saws	A CONTRACTOR		5/8" (16 mm) and Diamond Knockout	Decks	24

### Made Stronger. Lasts Longer.

IRWIN<sup>®</sup> has redefined excellence in the world of saw blades with the introduction of MARATHON<sup>®</sup> with WeldTec<sup>M</sup>. This revolutionary saw blade has WELDED carbide teeth for a 30% stronger tooth bond that provides 50% longer life. UC2<sup>M</sup> (sub-micro grain) carbide teeth are 70% more compact than standard carbide teeth, and are sharpened to finer, more durable cutting edges that stay sharp longer.

### **IRWIN MARATHON Saw Blades**

- · Every other tooth is ground thinner for faster cuts
- Construction-grade carbide teeth for long life
- Reinforced shoulder for added durability
- Heat vent and expansion slot design reduces vibration for longer life and straighter cuts
- Fastest Framing Blade Ever<sup>™</sup>

### IRWIN Classic Series Saw Blades

- Precision-ground teeth for smooth, accurate cuts
- Corrosion-resistant coating helps prevent rusting
- Professional performance at an economic price

### IRWIN Portable Corded Steel Saw Blades

- Precision-ground teeth for smooth, accurate cuts
- Fully-hardened plate runs truer longer
- Heavy-gauge high carbon steel for extended life

# EXTENDED LIFE. FLAWLESS FINISH.

IRWIN is proud to introduce a full line of fine woodworking saw blades that are manufactured in Italy to the highest standards of precision required for fine woodworking and finish carpentry. These industry-leading laser-cut, thin kerf saw blades are produced in a highly-automated, state-of-the-art facility in Udine, Italy – the heart of high-quality circular saw blade manufacturing. Engineered with oversized, high-quality carbide, the new Marples Woodworking Series saw blades provide the extended life and flawless finish professional woodworkers and finish carpenters demand.

### **Alternate Building Material Trends**

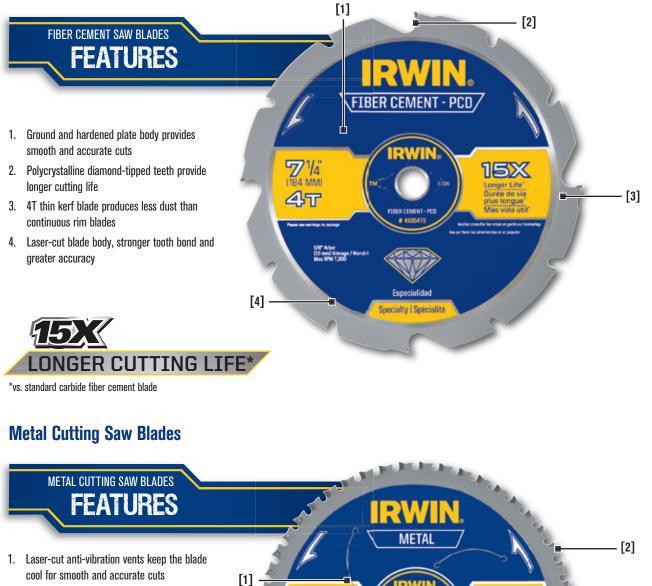

Recognizing the emergence of alternate building materials on the jobsite, IRWIN<sup>®</sup> developed a line of specialty blades designed to provide superior cutting performance in a variety of materials. Just as metal framing and fiber cement siding are used to extend the strength and life of a building structure, IRWIN's specialty blades are engineered with unique technologies that extend the life of the blades used to cut these materials.

<b>Materials</b>		Blade Diameter	Arbor	Application	Teeth
