

SPECIFICATION SHEET

Description

Durable, economical and affordable forearm protection. Tillman's lightweight, Fire Retardant 6218 Cotton Sleeves protects the users wrist to bicep.

The sleeves have standard internal elastic on both ends, that keep the sleeves in place during most welding activities. The 9-ounce cotton sleeves are flame resistant and fully washable.

The Westex FR7A Cotton fabric is extremely effective and will protect you against sudden flashes of flame or sparks during light welding projects.

The 6218 sleeves are meant for light duty welding and they must be kept clean to insure protection.

Features

- 18" length.
- 9 flame retardant cotton sleeves.
- Standard internal elastic at both ends.
- Made from flame retardant, US Made, Westex 100% cotton FR7A.
- Offers protection from sudden flame exposure, light duty welding and sparks.

Technical Specifications

Sleeve Material:	100% Cotton, FR7A material
Cuff Material:	Internal elastic
Lining:	NA
